Tucked away within the picturesque grounds of Clyne Castle lies a spectacular contemporary home – a true gem in the stunning gated community of Blackpill, situated within close proximity to the seaside village of Mumbles and the seafront. Castle Lodge, a detached period property, was part of the extensive redevelopment of the castle and its surrounding grounds in 2005. This historic building has undergone a remarkable transformation, seamlessly blending bright, open-plan living spaces with a luxurious finish and a sleek, contemporary design. Offering a generous 2629 square feet of living space, this remarkable home boasts four bedrooms, each with its own en-suite bathroom, private gardens, three designated parking spaces (and visitors parking), a generous south-facing roof terrace, and the added security of the gated development. Freehold. Viewing is highly recommended.
